

Age: 15 Year Sex: Male Date: June 2016,

Complaints

Paralysis Urinary bladder in the age of 5 Year Allopathic Dr says urinary bladder not work forever now patient age is 15 year and Allopathic Dr operate and fix catheter forever

Infection in urine

Urine back flow to kidney

Left kidney work 65%

Pain in left Kidney

Thirst +++

Appetite some time increase and sometime decrease

Pt like cold drink and cold weather

Repertorisation – not included

Facial Analysis

Psora (yellow) – front teeth, forehead? 1-2

Sycosis (red) – nose, lips, chin ball, hairline? Mouth – 4-5

Syphilis (blue) – chin, eyes position, asymmetry, ears size, hairline position, bridge, forehead shape, teeth? 7-8

Pt Belong to Blue Miasm Family so

I advise **Conium 30** and **Plumbum Met 30** Alternatively.

After taking two medicine within 2-month patient urine come in normal condition no more kidney pain and **urine catheter** remover. Pt cure with the help of God

I am using Facial Analysis Book during prescription when pt come to me I am open the book and start Analysis for example Hair line, I am see the patent what is the type of patient hair line like forehead eye nose when I see similar point I Write on the note book just check my prescription in the last of this file you can understand very well how I prescribe.

My Name is Dr Waheed Ahmad and DHMS completed in Hameed Memorial College in Lahore Pakistan and I am start practice 2008 in Shahdra Lahore Pakistan
